Personal Social Emotional Development

This week in our Jigsaw Jeanie lesson, we will be talking about why exercise is important to keep us healthy.

Communication, Language and Phonics

In phonics this week we will be revisiting the phonemes and tricky words we have learnt so far.

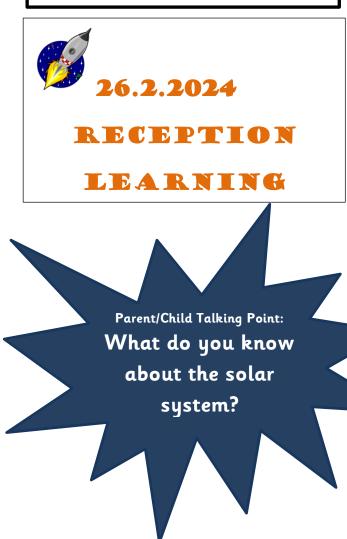

This week we will continue to focus on the composition of numbers, reinforcing our knowledge of 5 and exploring its relationship with other numbers e.g. '6 is 5 and a bit'.

Expressive Arts & Design

This week we will be singing and performing a range of songs and poems about space.

Please ask us to sing you a song!

Literacy

In reading this week, we will be reading non-fiction texts about space, focusing on retrieving facts and developing our vocabulary. You can support this learning at home by talking about the books/stories that you read at home. Can you retell them in your own words?

In gymnastics we will be learning to create different sequences of shape and travel.

Understanding the World

We will enjoy a visit to the space dome in our studio! We will have the opportunity to see and learn about space and our solar system.
