

Personal, Social and Emotional Development

In our carpet time sessions we will be talking about what the word 'healthy' means and that some foods are healthier than others.

Communication and Language

The children will be introduced to the vocabulary of growing over the coming weeks - seeds, soil, shoots, roots, growth, growing, tallest, shortest.

Physical Development

We will be continuing to encourage the children to write their name on their learning and to hold the pencil correctly in a tripod grip.

Mathematics

We will compare sizes of seeds. The children will be encouraged to use descriptive language to describe the seeds - smallest, tiniest, biggest, largest.

Nursery Learning

22nd-26th April 2024

Seeds and Growing

Understanding the World

We will be looking at all different types of seeds and will be talking about what a seed needs to grow - sun, soil and water/rain. We will cut up different fruit and vegetables to look at the seeds inside them to and see how different they can be. We will also be sowing cress for our cress heads. At home, when cutting up fruit and vegetables, please take a look to see if you can find seeds. You could try and sow them and see what happens next.

Literacy

We will be reading *Ten Seeds* by Ruth Brown as well as looking at lots of non-fiction books about growing.

Expressive Arts and Design

We will be using pastels to draw fruits and vegetables from our observations.
