

## Personal, Social and Emotional Development

In our Jenie Jigsaw lesson this week, we will be learning why it is good to be kind and to use gentle hands.

It is also Feeling Good Week. We will be taking part in some activities to help develop our emotional wellbeing. We will be learning how to recognise and understand different feelings.

## Expressive, Arts and Design

This week, as part of Black History month, we will be learning about the artist Alma Thomas. We will have a go at painting patterns and natural objects in the style of Alma Thomas.

Whilst learning about autumn, we will be exploring using autumn colours to make an autumn tree picture.

## Communication and Language and Phonics

We will continue to develop our listening skills and learn new phonemes **g, o, c, k**. We will be learning the new tricky word: **is**

## Physical Development

We will be focusing on games and activities to support our gross motor skills and our wellbeing. We will be working in pairs or small groups to create different shapes using our bodies.

We will continue to practise our name writing and cutting skills as well as participating in lots of activities to strengthen the muscles in our hands and fingers.

## Literacy

We will select a new library book. During our shared reading this week, we will be focussing on rhyming words. As you read your child's library book to them, please discuss any new vocabulary and model reading from left to right by using your finger. Pick a few short words from your library book and see if you can think of any rhyming words.

As we observe Black History month, we will enjoy and discuss a story each week which celebrates diversity. This week we will share the story: *So Much* by Trish Cooke.

# RECEPTION LEARNING

## Maths

In maths this week we will be learning to count how many objects are in a set using 1:1 correspondance and recognising that the last number that we count is the total number of objects (cardinality).

## Understanding the World

This week we will be using our senses to explore autumn. We will look for signs of autumn around our school and investigate the autumnal objects that we have brought in from home.
