

Personal Social Emotional Development

We will be learning about what it means to be a Problem-solving Ant. We are learning to:

- Try different methods.
- Ask many questions and explain our thinking.
- Explore how things link together.

In our Jenie Jigsaw lesson this week, we will be thinking our homes, how they differ and why they are special to us.

Expressive Arts & Design

This week we will be using our problem solving and creative skills to design and make props for our 'Birthday' role play.

During music we will be learning our Nativity songs.

Communication, Language and Phonics

We will continue to develop our listening skills. Learn new phonemes:

qu, ch, z and reading words which have an S at the end of them.

The tricky words for the week are: **go, no, to into.**

Physical Development

In PE we will use our bodies to make firework shapes and movements as we complete our firework dance series of lessons.

Literacy

During our shared reading this week, we will be sharing a poem, 'Down in the Jungle'. We will be focusing on the rhythm, repetition and spotting phonemes we know.

As you read your library book at home, do you see any repetition in your text? Do you spot any familiar phonemes?

Please do not forget to return your library book on Mondays.

Talking point: If you could be a jungle animal, what would you be and why?

20.11.23

RECEPTION LEARNING

Maths

This week we will be talking about number 5.

We will learn the correct way to write 5 and investigate different ways of making 5 using concrete apparatus.

Understanding of the World

This week we will be talking about birthdays and how different families celebrate them in different ways.
