

Communication and Language

The children will be learning lots of new number rhymes and songs that we will recite and sing together. We have attached some of these for you to recreate at home. We will also be encouraging children to talk about their toys at home, what their favourites are and why.

Physical Development

The children have been practising and improving their cutting skills. This week the children will be given more opportunities to cut out pictures from magazines.

Personal, Social and Emotional Development

This week we will be talking about what a challenge means and discuss how we could overcome something we might find difficult. We will talk about not giving up and persevering and working as a team.

Nursery Learning

19th-23th February
2024

Numbers

Expressive Arts and Design

We will be learning and singing number songs this week, and even making up our own! If you would like to practice some of these at home with your child, please find attached 'Five Speckled Frogs' and 'Five Enormous Dinosaurs.'

Literacy

We will be reading *Kippers Toy Box* and will practice retelling the story. If you would like to watch the story being read at home, please follow this link: <https://www.youtube.com/watch?v=GBUW9hHpfuc>

Mathematics

The children will participate in different maths games where they will practice saying one number for each item in order. The games will also help the children to develop fast recognition of small numbers as well as showing amounts using their fingers. If you would like to play some of these games at home, please find some links below: <https://www.pinterest.co.uk/pin/22518066874205470> <https://nrich.maths.org/13339>
